<u>Dear Donor: Fundraising for</u> <u>Athletics Facilities</u>

- Susan Bassett, Director of Athletics and Recreational Sports, Ithaca College
- Amanda Braun, Director of Athletics,
 University of Wisconsin-Milwaukee
- Ann Drummie, Regional Vice President,
 Brailsford & Dunlavey
- Lori Mazza, Director of Athletics
 University of Pittsburg-Bradford -Moderator

#NACWAA13

Hoping to answer.....

Why are donors such an important source for investments in athletics? What do donors respond to well / not well? (type of outreach, frequency, documents,...) What if a donor offers money in a way that actually makes you have to get even more money from other sources? What works well / not well when an athletics department and institutional development office are looking at the same donors? What are signs of donor fatigue, and remedies? Do naming rights deals actually work? How are individual donors different from corporate donors? How are asks different for facility projects versus various operating needs? How does an athletic department development 'office' vary at different institutions?

Ann Drummie Regional Vice President Brailsford & Dunlavey adrummie@programmanagers.com

Strategic Plan

- Guides the department in its decisions and founds it within the larger institution
- Includes: mission, vision, core values, initiatives
- Tool with a donor:
 - ☐ Why is the project needed?
 - ☐ Who will the project serve?
 - ☐ How does it fit into the mission?
 - ☐ What is the regional and national perspective?

Passion and pride

for our added pursuin, for our attacking pursuit, and for the University Passing and poids are what creates a delibers of integrity

Long Range Master Plan

- Sets goal for the physical layout of all or part of a campus in the next ten plus years
- Includes: existing and future maps, preliminary sketches, orders of magnitude of full vision cost and timeline

- Tool with a donor:
 - ☐ How will available land be used?
 - ☐ How does athletics fit within the overall vision for land use?
- ☐ What physical constraints are there for sizing and sequencing projects?
- ☐ What political and real estate issues are involved?

Athletic and Recreation Master Plan

Multi-sport Facility (MSF):

On the current site of Harbin Field, it is recommended flut as artificial self-field by hull with 4,500 specially reads and refared marenthes, a modern priss box, high quality lighting and audiour-saula equipment, and general support spaces for home and visiting fearms.

Induce Athletic & Recreation Facility and Banketball Arena;

On the current site of the cuddoor benn's courts, it is fectors recommended that a new facility be built will indoor court space for focused industrial and violeyable practices (and possibly vollegated competition), with a new main arbitract manual companies, and sometiment arbitract principles of several strength is conditioning noon, with new locker strength is conditioned strength for each strength sport (except the distinct of the pool, and at the boothouse), and with a focus for longer, it is also recommended that and of the feature of controlly in Yales to placed in all of the feature of the pool and at the strength of the pool of the feature of the pool of the po

Outdoor Facilities:

On the current site of Yates and North Xebox field, is in recommended that Yates be demoished to allow for a 400m outdoor track with a competition infletd and 2,000 specialist seats with railed amendies, a throwing events area, dinew tennes counts, a softical distance, as in prantical field, and some outdoor baskethad counts.

outhouse

It is recommended that the Boathouse Committee continue its efforts to provide a facility on the Potomac River accommodating the crew teams with looker from, practice, meeting, and storage facilities.

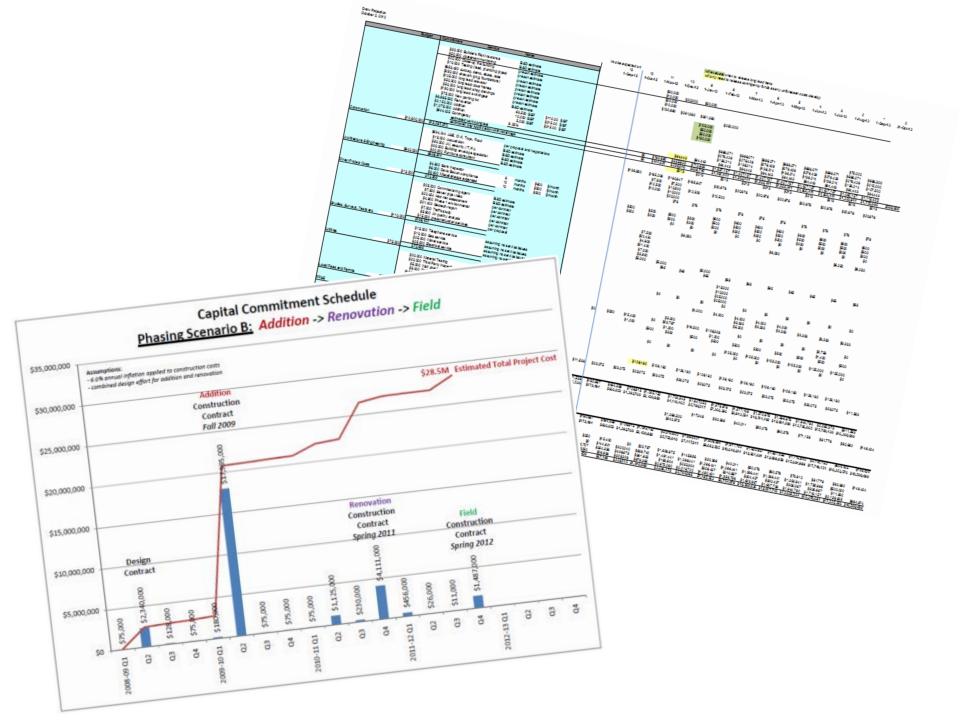

Business Plan

- Founds a specific project in business terms
- Includes: comprehensive capital budget, concept drawings, milestone schedule for funding, operational costs, pro forma

Tool with a donor:

- ☐ What spaces are included?
- ☐ Is it renovation or new construction, and why?
- ☐ When will it be open?
- ☐ Is the schedule tied to other things?
- ☐ How much does it cost to build, and to operate?
- ☐ How will it impact the operating budget?

Measurement Indicators

- Provide a framework to track progress
- Includes: GPA, appearances, graduation rates, debt coverage ratio, attendance

- Tool with a donor:
 - ☐ How much of a stretch is the goal?
 - ☐ How will we identify success?
 - ☐ What mechanisms are in place to flag risks?

Press Releases

- Exhibit commitment and buy-in
- Includes: Athletic department, President/Chancellor's office, cabinet resolutions, neighbor letters of support

- Tool with a donor:
 - ☐ Who are the key stakeholders?
 - ☐ Who is supporting the project?
 - ☐ Who approved the project?

Similarly assess the Partner

Strategy aligned mission?

show integrity

Patience

respectful?

discuss priorities

Preparation

thorough?

coordinate details (ex. paperwork)

Stewardship

reliable?

fully meet obligations

Support

stable?

not disappear

Passion

vested?

stay motivated
